*\* A child is a person under 18 years of age. The Care and Support Statutory Guidance issued under the Care Act 2014 (14.2) by the Department of Health replaces the previously used term 'vulnerable adult' with 'adults experiencing, or at risk of abuse or neglect'. A 'vulnerable adult' as a person aged 18 or over whose ability to protect himself or herself from violence, abuse, neglect or exploitation is significantly impaired through physical or mental disability or illness, old age, emotional fragility or distress, or otherwise; and for that purpose, the reference to being impaired is to being temporarily or indefinitely impaired.*
